Project description

Buildings retrofit; upgrading of street lighting; public vehicle replacements and implementation of micro renewable energy plants

Project development services financed by eeef

- Technical development in project development phase (completion of initial studies, energy audits etc.)
- Legal advice to define the public procurement process
- Definition of a measurement and verification system to measure the achieved savings

Expected results

Energy savings: 30,718 MWh
GHG emissions reduction: 5,316,272 kg CO₂e/year

**REGION RHÔNE-ALPES
(FRANCE)**

Location	Region of Rhône-Alpes, France
Total investment volume	€ 25.0m
TA amount by eeef	€ 1,125,000
Closing date	04.11.2013

Project description

Establishing a public ESCO Société Publique Locale d'Efficacité Énergétique (SPL) to promote energy efficiency investments – primarily for the renovation of public school buildings

Project development services financed by eeef

- Support the legal set-up of the ESCO SPL, financial and business planning and SPL's accounting and administrative requirements of the set up (especially to cover personnel costs)
- Conduct technical feasibility studies to prepare total potential investments of € 50.0m, outline technical specifications, manage the tender process and prepare contractual documentation with the companies to realise the renovations and maintenance work.

Expected results

Energy savings: 4,087 MWh
