

The Fund has been benefiting from the European Commission technical assistance facility (EC TA Facility), which supports the mission and strategic direction of the Fund and is primarily for assisting public partner institutions in their project development activities in preparing valuable investments. The application phase for securing grants under the EC TA Facility ended on 31 March 2014. In total, over €14.0 m in EC TA Facility funds have been allocated to support the project development work of 16 public beneficiaries in eight different countries.
