\* This is a combination of estimated and real data for all projects within the current portfolio.

All projects within the portfolio are reporting CO<sub>2</sub>e and/or primary energy savings. Reporting commences from each project's financial close. A total of 16 projects have been reported in 2015 (Banca Transilvania has reported on seven sub-projects).

<sup>5</sup> There have been changes in numbers from previous version of AR 2015 due to updated data received from Bollore and transition to greenstem™ reporting tool.
